Enfin il n'y a pas de drogue, tout est dans la dose d'amour. The economic crisis in Europe, disastrous proportion of immigration in Lithuania and Latvia exacerbates social problems of small towns as new types of social risk families appeared: low-income families, single-parent families where one parent works abroad, families where youth live without parents or with distant relatives. This emphasis on the importance of the experiential dimension is, of course, not unique to Abhinavagupta. The sun's rays are utterly universal in their radiance.

can ask us anything by emailing us. The difference between the literary elite and common layers of society in the appropriation16 of these supernatural interventions is that they were constitutive in the formation of the communities among the common people, while the elite had looser and more

individualised relationships with the priests, partly because they had higher mobility potential.
